Congress will do justice to the country printing officers when it repeals the law allowing stamped envelopes to be printed at the expense of the public. This sop to business is a discrimination and we protest against private favors at government expense in all forms.

When Mrs. Fain said women did not want a tax on cosmetics, the bill was defeated. You might just as well put a tax on silk stockings and require in this way the women of Virginia to carry the burden of the government. Such a law would drive millions of dollars to the mail order houses.

Supervisors

Board Supervisors met yesterday and allowed sundry accounts.

Clerk submitted report of the finances for 1925 and the board ordered same printed according to law in this paper.

School board opposed and asked for $15.00 to continue the schools and the board allowed $1000 out of the dog fund tax.

Co-op Meeting

Co-ops met in regular monthly meeting here Saturday, and Director Wingfield was present and addressed the meeting. Resolutions were adopted deferring until the March meeting the proposition of endorsing the policies of the officers of the association. The members desiring more information on the report of the Federal Trade Commission's finding of mismanagement.

The tobacco growers of Appomattox are intensely interested in the success of the association and feel that the success of the association is of more importance to them than the endorsement of any policy of its officers. With a full and fair presentation of the facts the management need have no fear of a just verdict of the farmers of Appomattox.

Piney Ridge School

November: The Jr. League placed in the school a first aid medicine cabinet, health. food, and physical educational posters.

December: They entertained with carols and recitations, quite a large crowd of their friends from Lynchburg, Roanoke, Java Cullen and Pamplin, Va.

The teacher gave the pupils a Xmas tree, on which she placed a present for each and a stocking filled with nuts, raisins, candy, a tangerine, orange or kumquots, (the fruit was direct from Florida.) The color-scheme was carried out in the dainty stockings. Every one enjoyed themselves hugely.

January: The Jr. League entertained their parents, friends, and teacher with songs, physical educational stunts, and athletic games. "And last but not least" they served a course of sweets. We are anticipating a great time at our February meeting.

RUSSIAN PEASANTS FLOCK TO SEE GEMS

Gaze in Wonder at $250,000,000 Collection.

Moscow. — Russian workers and peasants are flocking by the scores of thousands to enjoy the dazzling splendor of the crown jewels of the Romanoffs, now the property of every poor citizen of this Communist republic. This collection of gems, the estimated value of which is $250,000,000, has been turned into a source of revenue by the Soviet government, which has placed it on exhibition at the Soviet trade union house in Moscow, formerly the Club of the Nobles.

The regal collection represents the accumulated treasure of ten different Russian royal houses, and includes crowns, scepters, coronets, emblems, tiaras, diadems, necklaces, bracelets, rings and gems of many other kinds.

Charge Admission.

The general public is charged an admission fee of $1, but members of the trade unions and cooperative organizations pay only 25 cents. The collection has proved a strong drawing card to the workers and peasants, who manifest the deepest wonder and admiration as they stand spellbound before the sealed glass cases.

Extraordinary precautions are taken against theft. Armed soldiers are stationed throughout the building.

The object of greatest curiosity among the gems is the huge imperial crown of all the Russias, a magnificent dome-like patriarchal miter, containing more than 4,000 carats of diamonds of the first water and carrying on its summit a cross of diamonds and rubies of matchless beauty, the whole valued at $52,000,000.

Next in interest comes the coronet worn by the stain Empress Alexandra, perhaps the most beautiful mass of diamonds ever brought together in a single ornament. Another object of great attention is the famous imperial scepter of power used by the last czar, which is surmounted by the world-famed Orloff diamond, as large as a bluected egg and containing 189 carats. This slender, graceful emblem is valued by the Bolshevist at $80,000,000.

"Shah" Diamond.

The "Emblem of the Imperial Realm," a globular object of gold surmounted by a cross of diamonds, sapphires and rubies, and valued at $24,000,000, comes next in interest. Among the single unmounted gems, the so-called "Shah" diamond of 86 carats and appraised by the Soviet authorities at $12,000,000, is probably the most striking. It is a memorial of the respect entertained for Imperial Russia by her Mohammedan neighbors in the days before the Bolshevist took power, the great stone being a gift to the emperor of Russia by the shah of Persia.

Cannibals Discuss Proper Methods to Cook a Man

London.—Sir Hubert Murray, governor of Papua, the British island possession north of Australia, in which cannibalism still is practiced, has just published a new book, "Papua of Today."—In which he gives a skylight on cannibalistic cooking.

While Sir Hubert was investigating a case of cannibalism the question of cooking methods arose. One Papuan witness objected to the testimony of another native, because, he said, "Jasi Jasi is a poor cook."

"If you cook a man on an open fire I agree that he will be tough," this witness continued, "but cooked on hot stones and covered with leaves the stringiest can will be tender. Why should he be any tougher than a bush pig?"

Sir Hubert is the brother of Sir Gilbert Murray, noted as a classical scholar.

Daughter of Midgets to Be Normal Size

Los Angeles, Cal.—The child of a midget mother and father, brought into the world by a Caesarian operation, Norma Louise Fox, three days old, is reported as doing nicely at the Osteopathic Sanitarium hospital.

Perhaps the most remarkable thing about it, Dr. Norman Sprague, house physician at the hospital, said was that the baby at birth weighed six pounds and three ounces and would grow to normal height and weight despite her midget parents. Doctor Sprague said the midgets were caused by glandular disarrangement, and investigation has proved the baby normal in every respect.

The parents of the child are both circus performers, and both are slightly more than three feet in height.

School Head Quits as Dance Protest

Meriden, Conn.—Because jazz music of today's dances tends to demoralize boys and girls, David Gibbs has resigned as superintendent of the Meriden schools. He handed in his resignation after the board of education agreed to a trial dance at the school.

The board's rules provide that no dances shall be held in the school without the sanction of the principal and superintendent. Doctor Gibbs believes there has been no change in dancing conditions since three years ago when high school dances were stopped because of unruly conduct. He says that in a near-by town the janitor collected many empty whisky bottles after a high school dance recently. Doctor Gibbs has held his office 12 years.

HIXBURG

Miss Flossie Marshall has recently entered training for nurse at Charlotte, N. C. She visited her sister, Miss Bessie Marshall, of Lexington, N. C., en route to Charlotte.

Our snow storms for the winter begin to count up. The one early Monday morning soon disappeared as "Old Sol" made his appearance.

Miss Ross Lillian Fore of this place is now with the State Bank of Pamplin.

Preaching at the Presbyterian church was very well attended Sunday considering the condition of the roads.

Ed McPhillips motored to Richmond Sunday to bring Mr. McCue and family home Monday. Mrs. McCue stood the trip well and all hope her condition is improved by treatment at St Luke's Hospital.

Our school with its efficient teachers, keeps steadily in session, despite the weather, bad roads and prevalent colds.

We are glad to note that Mrs. Ira Burnett and daughter, Blanch, are much better at this writing.

The farmers of this section are grieved and worked up over the T. G. C. A. All are in favor of a thorough "house cleaning." Confidence once lost is hard to regain as the directors must realize. We want the association, we must have it; but, it must be straight forward, honest, open and above board from start to finish.

Miss Ruby Phillips has returned from a visit to her sister near Farmville.

Mrs. H. C. Wheeler is in Richmond again for treatment for ear trouble.

Rupture Shield Expert Here

E. J. Meinhardi, the well known expert from Chicago, will personally be at the Burton Hotel, Danville, Va., on Thursday, Feb. 18th, from 9:00 a. m. to 5 p. m. and at the Virginia Hotel, Lynchburg, Va., on Friday, Feb. 19th, from 9:00 a. m. to 6.00 p. m.

Mr Meinhardi says "The Vacuum Rupture Shield" will not only hold the Rupture perfectly, but will contract the opening in shirty days on the average case —usually giving instantaneous relief withstanding all strain regardless of the size and location of the Rupture.

WARNING: Do not expose yourself to the danger of wearing old-style trusses with undersraps. These trusses usually place the pad on the lump and not on the rupture opening. This often causes strangulation which usually neccessitates an immediate surgical operation, or results in sudden death. "The Vacuum Rupture Shield" has no understraps, no straps around the body or legs. It is also perfectly sanitary and practically indestructible, and should be worn while bathing. Only gentlemen are invited to call at this time as a special visit will be made here later for women and children.

Notice: "The Vacuum Rupture Shield" can not be fitted by mail. Every case must be seen personally. Please note the dates and hours carefully. Strictly no charge for demonstration. Address all correspondence to E. J. Meinhardi Co., Whitehall, Michigan.

OAKVILLE

There were many shouts of delight heard around Oakville school Friday afternoon, for mid-term examinations were over. Hay Absorbs Sea Oil

Hay cast on the waters in the harbor of Stockton, Cal., absorbed a thick coating of oil and scum that had accumulated there. The hay drifted where was raked to one side or turned.

Dancing an Old Pastime

Dancing dates so far back that it is lost in antiquity, for the oldest peoples known to have inhabited the earth had forms of dancing not unlike those which still exist. The first ballet, however, was given in Italy in 1489 and was introduced into France a century later.

Texas Lady Tells How She Got Rid of Her Troubles.

"The first time I took Cardui, I was in an awful bad way," says Mrs. Ora Carlile, R. F. D. 5, Troup, Texas.

"I was afflicted with awful smothering spells. My mother had some Cardui in the house that she was taking, so she immediately began giving it to me. In a few days I got all right.

"Last fall I got run-down in health. I was weak and puny and I began to suffer with . . . I would get so I could hardly walk. Having taken Cardui before, I went to the store for a bottle of it.

"Almost from the first dose I could feel the improvement. . . . I am much better now.

"Cardui has helped me a lot and I am glad to recommend it. I don't feel like the same woman I was last fall.

"My appetite is good now, and I'm sure it's Cardui that's made it pick up, for in the fall I had no relish for food at all, while now I'm hungry for my meals."

MED-O-MINT

VEGETABLE CLEANSER PURIFIER LAXATIVE APPETIZER

O. H. Eckhardt, car inspector on Southern Railway says: "Med-O-Mint has cured me."

For years I was a sufferer from chronic stomach trouble.

Nervous Dyspepsia, Indigestion, Constipation, (the terms used by doctors) had me so tightly in their grip, I could not eat or sleep scarcely at all. I was in bad shape, grouchy and unable to work more than half time.

A friend recommended Med-O-Mint. The first dose gave relief. I am now well. Med-O-Mint has cured me.

I think it is the best laxative tonic in the world."

Med. O-Mint removes the cause —try it.

Three sizes 25c, 50c, and $1.00. Buy it anywhere, or will be sent prepaid upon receipt of price.
